

Room 205 Projector

1. Turn on the computer tower
2. Find the white remote and press the ON button to start the projector.
3. After 1 minute, the computer login-screen should be visible
4. Login with the following information:
ID: room205
Password: *Room_205
5. To use a laptop with the projector, attach the VGA cord at the top of the cart. For Macs, attach the white adapter (pictured). You may need to change the source on the remote. For sound, plug in the audio cable attached to the vga cord.
6. If the keyboard is having problems, re-sync it by pressing the buttons on the back of the keyboard and the receiver (located on the side of the cart) or change batteries
